

Hear from our 2023 Graduates

Cullen McElroy
Accountant

Polson Higgs has a great work life balance. I'm out the door most days at 5. I actually get a chance to do all the things I enjoy and spend time with my mates after work.

Jack Hutton-Atkins
Accountant

Coming from the Maniototo, I wanted to work in the rural sector. Being a member of the Polson Higgs rural team, I'm working directly with clients on their farm. On a daily basis, I get to combine my passion for farming with my degree and I love it!

More than going to work

**CREATE
YOUR
FUTURE**

Keeleigh Jones
Accountant

In my team, I'm supported by experienced managers and accountants. From day one, I have been able to ask for any help. There's always someone close at hand to provide me with the support I need.

Max Chisnall
Junior Tax Consultant

I joined Polson Higgs halfway through 2023. I was initially nervous to start but everyone was so friendly and welcoming. The culture at Polson Higgs is second to none.

Staff Benefits

- Competitive first year salary.
- Significant annual salary reviews of between 7% to 12% in your first two years of gaining experience.
- 20 annual leave days, plus an additional two days leave, known as "Accountant Days".
- \$1,000 clothing allowance.
- Paid study leave and course costs.
- Recognition and rewards for your achievements.
- Health & wellbeing initiatives to ensure a healthy work-life balance.
- Bonuses for achieving your CA.

Sophie Strathern
Accountant

My first 12 months have been very busy, not just learning a new job, but also being involved in the social side of the firm. From playing social touch with my colleagues to boat trips on the harbour. There's always something happening here at Polson Higgs.
